## The AluK spirit: partnering with entrepreneurs since 1949

*Welcome to the AluK family! Joining our company means becoming part of a dynamic and committed community of entrepreneurs.*

*For 75 years, AluK has stood out with a resolute and innovative entrepreneurial approach. As a global player, we operate across diverse markets while maintaining a local perspective, allowing us to stay close to our partners and adapt to the unique characteristics of each region. Our expertise in aluminium building systems enables us to design high-performance solutions tailored to the needs of each of our clients.*

*At AluK, we understand that your success is also our success. That's why we are dedicated to supporting you at every step of your journey in the aluminium industry.*

*All of this is made possible by our team, the true driving force behind our success. Every member shares a common vision of quality and excellence, working with the commitment to satisfy our clients and the responsibility to build a sustainable future. By choosing AluK, you're choosing a partner devoted to your success and to a better future for all.*

*Thank you for being part of our journey, and together, let's continue to forge a prosperous and innovative future.*

# Aluminium at the heart of all our brands

The AluK Group has been designing, manufacturing and distributing aluminium building systems for a wide range of industries for over 75 years.

Our diverse brands reflect our commitment to going beyond traditional offerings and setting new standards, combining innovation, sustainability and excellence.

## ALUK

Aluminium systems for doors, windows, façades, conservatories and balustrades.

## KELLER minimal windows®

Minimalist sliding systems and pivot doors for the high-end residential market.

## Croci

Manufacturer of aluminium hurricane shutters.

## PALLAZZO®

Aluminium systems for outdoor living products.

The Valfidus Group owns around twenty brands operating in the fields of aluminium joinery systems, door and window manufacturing, extrusion, renewable energy, real estate and other services.

## Design is at the heart of our business, and innovation is at the core of our spirit.

For over 75 years, our mission has remained unchanged: to create innovative, high-performance, and sustainable solutions that meet the strictest industry standards while incorporating contemporary and aesthetic designs.

Within our in-house facilities, our passionate experts meticulously design, develop, and rigorously test our aluminium building systems.

We specialize in both new construction and renovation projects, offering custom solutions tailored to every need. Our products are specifically developed to ensure not only quick manufacturing but also easy installation, enabling efficient implementation without compromising on quality.

### #GrowWithUs

*With a constant focus on improving living spaces, our teams are continually striving to optimize our solutions, providing greater sustainability, performance, and comfort to our users.*

# High-performance tools and processes for optimal production.

At AluK, we take pride in the investments we've made in our production facilities over the years. Our state-of-the-art facilities give us the scale and tools to meet the diverse needs of our customers and help them develop their business with confidence. Our sites integrate the entire production process: painting, crimping, finishing and packaging of profiles and accessories.

Each stage of production is subject to rigorous quality control, guaranteeing our customers high quality products that comply with current standards and regulations.

### #GrowWithUs

*Thanks to our local approach and extensive storage capabilities, we ensure close support and responsiveness to our clients, quickly meeting their needs and requirements.*

## Local partner. Personalised support.

Our diverse clientele includes architects, specifiers, manufacturers, installers, and industry professionals, all of whom we serve with personalised care and bespoke solutions to fit each project's unique requirements.

We offer comprehensive support at every stage – from the initial concept and cost estimation, to technical assistance, custom solutions, and product range optimisation. Our expert teams are dedicated to addressing every need. As part of our commitment to excellence, we also provide training in aluminium joinery through our specialised Academy.

For our retail partners, we extend our expertise through our AluK Home brand, offering strategic tools and solutions tailored specifically to the homeowner market.

More than just technical and commercial support, we believe in cultivating genuine, long-lasting relationships with our partners. We are dedicated to being there at every step of the way, providing personalised guidance and ongoing support to help their businesses thrive.

### #GrowWithUs

## The AluK India Commitment: Empowering Growth, Building Futures

*Welcome to AluK India! Being part of our journey means joining a forward-looking organization that thrives on innovation, collaboration, and a deep-rooted entrepreneurial spirit.*

*For over a decade in India, AluK has stood for quality, reliability, and excellence in aluminium building systems. Backed by the strength of a global legacy and the agility of local insight, we have consistently delivered solutions that address the evolving needs of Indian architects, builders, and homeowners.*

*At AluK India, we believe in building partnerships—not just projects. Whether you're a dealer, fabricator, developer or homeowner, our commitment is to empower you with products and services that ensure long-term success. From aluminium facades to sleek, modern windows and doors, we are proud to contribute to India's architectural transformation.*

*Our people are the foundation of everything we do. It's their passion, creativity, and integrity that shape our customer experiences and drive us forward. Together, we're not only helping to build better spaces—we're also contributing to a more sustainable future.*

*Thank you for placing your trust in AluK India. Let's continue to grow, innovate, and shape the skyline of tomorrow—together.*

Of products

04

## Uninterrupted Views, Unmatched Performance

Our sliding system range combines modern aesthetics with smooth functionality, offering sleek profiles, wide openings, and excellent acoustic performance.

Designed for both contemporary homes and high-performance projects, these systems ensure durability, ease of use, and seamless indoor-outdoor transitions.

# Sliding SYSTEMS

# Sliding System

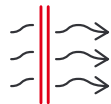

## INFINEO – Minimal sliding system

Infineo by AluK is a premium frameless sliding door system that delivers uninterrupted panoramic views, maximum natural light, and sleek contemporary aesthetics. With a fully concealed frame, ultra-slim 21mm interlock, and seamless roller integration, it redefines luxury and performance in aluminium sliding doors.

**Wind Load:** 2000 Pa

**Air Permeability:** 600 Pa

**Water Tightness:** 450 Pa

**Sash Height:** 3500mm

**Sash Width:** 3000mm

**Sash Weight:** 350 | 450 kgs

**Glazing:** upto 32mm

**Interlock:** 31 | 21 mm

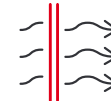

## SC140 – Lift and slide door

The SC140 lift and slide door system is built for large openings and heavy glazing, offering smooth, effortless operation even with frames up to 400 kg. Available in thermal and non-thermal variants, it ensures durability, performance, and elegant design for both residential and commercial spaces.

**Wind Load:** 2400 Pa

**Air Permeability:** 600 Pa

**Water Tightness:** 300 Pa

**Sash Height:** 3500mm

**Sash Width:** 2000mm

**Sash Weight:** 300 | 400 kgs

**Glazing:** upto 40mm

**Interlock:** 104 | 52 mm

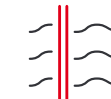

## S115 sliding door

The S115NI is a premium non-thermal sliding system engineered for security, energy efficiency, and exceptional acoustic performance. With support for laminated double glazing up to 36 mm, it delivers panoramic views and smooth operation for residential and commercial spaces

**Wind Load:** 3000 Pa

**Air Permeability:** 450 Pa

**Water Tightness:** 600 Pa

**Sash Height:** 3500mm

**Sash Width:** 1500mm

**Sash Weight:** 300 kgs

**Glazing:** upto 36mm

**Interlock:** 84mm

# Sliding System

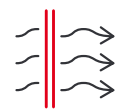

## SC95– sliding window & door

The SC95 series features a robust 95 mm non-thermal profile, high-performance rollers, and load capacity up to 180 kg per sash—designed for longevity, aesthetics, and seamless glide in residential balcony or patio applications. Highly customisable, it adapts to diverse design and functional needs with ease.

**Wind Load:** 3000 Pa

**Sash Height:** 3500mm

**Air Permeability:** 450 Pa

**Sash Width:** 1500mm

**Sash Weight:** 160 | 200 kgs

**Water Tightness:** 600 Pa

**Glazing:** upto 28mm

**Interlock:** 84 | 38 | 25mm

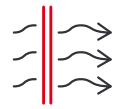

## SC45– sliding window & door

The SC45 is a versatile, lightweight non-thermal sliding system ideal for interior or moderate-climate applications. With clean lines and smooth sliding action, it offers an economical yet stylish solution for residential and light commercial use.

**Wind Load:** 1600 Pa

**Sash Height:** 2400mm

**Air Permeability:** 600 Pa

**Sash Width:** 1200mm

**Sash Weight:** 80 | 120 kgs

**Water Tightness:** 300 Pa

**Glazing:** upto 24mm

**Interlock:** 33.3mm

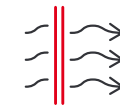

## SC40– sliding window

The SC40 is Aluk’s entry-level sliding system, perfect for cost-effective glazing solutions in non-insulated environments. Compact and practical, it delivers reliable performance for simple sliding window configurations.

**Wind Load:** 1600 Pa

**Sash Height:** 1800mm

**Air Permeability:** 600 Pa

**Sash Width:** 1000mm

**Sash Weight:** 80 | 120 kgs

**Water Tightness:** 200 Pa

**Glazing:** upto 8mm

**Interlock:** 24mm

## Precision Engineered for Performance and Style

Our casement system range offers superior insulation, secure locking, and sleek aesthetics, perfectly suited for modern architecture and energy-efficient buildings.

Designed with precision, these systems deliver lasting performance, exceptional weather resistance, and elegant finishes for both residential and commercial applications.

A photograph of a modern dining room. In the center is a round, dark wood dining table with four contemporary chairs that have dark blue upholstery and curved wooden backs. On the table are some decorative items, including a vase with dried branches and a small glass jar. The room features a large floor-to-ceiling casement window that looks out onto a city skyline. The window is framed by dark curtains. The floor is made of light-colored, polished tiles that reflect the room's interior. The ceiling has recessed lighting strips.

# Casement SYSTEMS

# Casement System

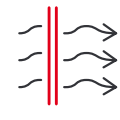

## C87K-CS NI – Minimal Infineo Casement

A non-thermal solution with ultra-slim 65 mm sightlines, the Minimal Casement system is crafted for contemporary spaces where aesthetics take center stage. It offers sleek design, maximum light intake, and dependable performance—ideal for premium interiors and moderate climates.

**Wind Load:** 3000 Pa

**Air Permeability:** 600 Pa

**Water Tightness:** 750 Pa

**Sash Height:** 1800mm

**Sash Width:** 800mm

**Sash Weight:** 100 kgs

**Glazing:** upto 32mm

**Opening:** Outward

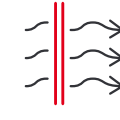

## 45DS– casement window & door

A 45mm overlapping window and door system, both inside and outside opening. The 45DS is a dependable non-thermal casement solution that blends strength with simplicity. Ideal for everyday use in residential and mid-scale projects, it offers smooth operation, clean aesthetics, and long-lasting durability.

**Wind Load:** 2800 Pa

**Air Permeability:** 600 Pa

**Water Tightness:** 900 Pa

**Sash Height:** 3000mm (door)

**Sash Width:** 915mm (door)

**Sash Weight:** 80 kgs

**Glazing:** upto 30mm

**Opening:** Inward | Outward | top Hung | Tilt & Turn

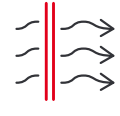

## 40N– casement window

Compact and efficient, the 40N is a practical choice for cost-effective projects in stable climate zones. A 40mm series outward opening casement windows both in flush and double overlap version with a choice of with and without glazing bead option.

**Wind Load:** 1600 Pa

**Air Permeability:** 600 Pa

**Water Tightness:** 750 Pa

**Sash Height:** 1600mm

**Sash Width:** 700mm

**Sash Weight:** 32 kgs

**Glazing:** upto 26mm

**Opening:** Outward

## Open Up Possibilities with Folding Doors

AluK's folding door systems seamlessly connect indoor and outdoor spaces with wide, unobstructed openings.

Engineered for smooth operation and long-term reliability, they combine elegant design with robust performance, perfect for patios, balconies, and large transitional areas in homes or commercial settings.

A photograph of a modern interior space featuring a large, light-colored wooden table with a live-edge finish. In the background, a set of dark-framed folding glass doors is partially open, revealing a paved patio area with white outdoor furniture and a green lawn. The floor inside is made of light-colored wood planks.

# Folding SYSTEMS

# Folding System

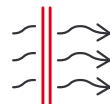

## BSF70 – folding door

The BSF70NI is AluK’s premium folding door solution, combining refined aesthetics with exceptional functionality. Designed for high-end residential and commercial spaces, it offers wide, elegant openings with smooth, secure operation—bringing luxury and performance together seamlessly.

**Wind Load:** 1200 Pa

**Leaf Height:** 3000mm

**Air Permeability:** 300 Pa

**Leaf Width:** 1200mm

**Vent Weight:** 120 kgs

**Glazing:** upto 40mm

**Water Tightness:** 150 Pa

**Opening:** Open-In | Open – out

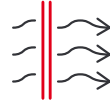

## 45V – folding door

The 45V series is a smart, space-saving folding door system tailored for modern homes and lifestyle spaces. Its minimalist design and easy operation make it an ideal solution for balconies, patios, and indoor-outdoor transitions in moderate climates..

**Wind Load:** 1200 Pa

**Leaf Height:** 2400mm

**Air Permeability:** 300 Pa

**Leaf Width:** 750mm

**Vent Weight:** 70 kgs

**Glazing:** upto 24mm

**Water Tightness:** 150 Pa

**Opening:** Open-In

## Design Freedom with High-Performance Curtain Walling

AluK's curtain wall systems offer architects and developers the freedom to create bold, light-filled façades with maximum transparency and structural strength.

Engineered for high wind loads, thermal efficiency, and seamless integration with doors and windows, they are ideal for modern high-rises, commercial buildings, and landmark architectural projects.

# Curtain Wall SYSTEMS

# Curtain walling System

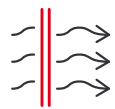

## W75U – Unitised Curtain Walling System

The W75U is a high-performance 75 mm unitised façade system designed for modern high-rises. It offers easy assembly, excellent air and water tightness, and design flexibility with seamless integration of glazing, windows, doors, and sunshades—meeting both aesthetic and technical demands..

**Wind Resistance:** 3000 Pa

**Face Width:** 75mm

**Air Permeability:** 600 Pa

**Depth:** 165mm

**Glazing Options:** Structurally glazed with or without capping/fin

**Water Tightness:** 750 Pa

**Glazing Thickness:** upto 40mm

**Seismic Movement:** 10 mm L&R AAMA

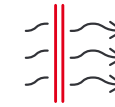

## SG50 – Structural Glazing

The SG50 Curtain Walling System is a structurally glazed solution designed to offer high performance. Our aluminium curtain walls enable specifiers to create impressive facades that not only enhance the aesthetics of a building but also provide the functionality and performance required to meet and exceed current standards.

**Wind Load:** +ve 1700 Pa  
-ve 1500Pa

**Face Width:** 50mm

**Air Permeability:** 600 Pa

**Depth:** upto 225 mm

**Glazing Options:** Dry (EPDM) & Wet (Sealant)

**Water Tightness:** 900 Pa

**Glazing Thickness:** upto 48mm

**CWCT Certified:** Sequence B

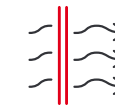

## SL50 – Conventional Curtain Wall

The SL50 is a versatile pressure plate curtain wall system with sleek 50 mm sightlines, ideal for a variety of façade designs. It offers strong performance, clean aesthetics, and seamless integration with AluK doors and windows.

**Wind Load:** 2400 Pa

**Face Width:** 50mm

**Air Permeability:** 750 Pa

**Depth:** upto 225mm

**Glazing Options:** Capped 2-way, 4-way, Hybrid

**Water Tightness:** 1500 Pa

**Glazing Thickness:** upto 60mm

**CWCT Certified:** Sequence B
